Sheraton Old San Juan Hotel Unveils Multi-Phase, Top-to-Bottom Renovation

Total Overhaul Encompasses Guest Rooms, Suites, Lobby, Rooftop Pool, Meeting & Banquet Facilities

San Juan, Puerto Rico – April 20, 2017 – The Sheraton Old San Juan Hotel, located in the heart of the Caribbean’s most visited city, is putting the finishing touches on a multi-phase, year-long renovation. The top-to-bottom overhaul touched upon the entirety of the 240-room property, from the lobby and public spaces, to an all-new rooftop pool. Each and every one of its guest rooms, 198 in total, and 38 of its 42 suites will be completed by May 2017. There will be a grand finale this fall when the nearly 1,100 square-foot Presidential Suite and a trio of newly renovated and expanded Governor’s Suites will be unveiled. The meeting and banquet facilities were unveiled in January of this year.

Upon entering the updated lobby at the Sheraton Old San Juan the impressive signature staircase cannot be missed. There is a coastal-inspired color palette, with blue accents reflective of the nearby ocean, which lends itself to a welcoming linger-a-little longer feel about it. The inviting space has all-new furnishings, most notably a communal table with easily accessible USB ports that make it conducive to networking and casual meetings.

The coastal charm carries into the guest rooms and suites with a sky blue and sand-hued palette creating the perfect balance of color and neutrality. The rooms are the ultimate spot for rest and relaxation, while still accommodating the needs of those traveling for work. All of the hotel’s accommodations now feature the ultra-comfortable Sheraton Sleep Experience® beds.

In response to an increasing number of leisure getaways, the hotel has added nearly two dozen more double-bedded accommodations; this room type represents nearly 50% of the property’s inventory with 100 now available. Another noteworthy addition to the rooms are mini refrigerators, a homelike touch that is ideal for guests to store beverages and late-night snacks to enjoy at their leisure.

"In planning and executing this extensive renovation, we kept all of our valued guests in mind," said General Manager Larry Vitale. "The rooftop pool is important to our leisure guests, while state-of-the-art meeting rooms and banquet facilities are critical for our corporate and group clients, as well as the local community for social events. We looked at all our market segments and made sure we were addressing what matters most to them as we made plans for the 'new' Sheraton Old San Juan Hotel. We are extremely proud of the outcome."

The 9,000 square feet of meeting and banquet space features new furniture, carpeting, wall covering, lighting and more. The rooftop pool, sitting high atop the nine-story hotel, is sure to be a popular spot for leisure guests and business travelers alike. It has all-new furniture, including cozy loungers for enjoying Puerto Rico's warm weather, and spectacular views of San Juan Bay and the new Bahia Urbana Boardwalk.
